OBJECTIVE

Hardworking and enthusiastic College Student pursuing BTech in Computer Science and Engineering with specialization in Artificial Intelligence. Seeking to use my knowledge of Data Structure and my advanced Communication Skills to effectively serve your company in an internship position. Dedicated, hardworking, and committed to becoming a dependable and valuable team member.

PROJECTS

Happy People -

Created a website that educate people about mental health. This Website asks some questions to the patience and tell them that which type of disease they have based on the answer given by user.

It also connects patience to therapists if they wants.

Twitter Clone -

I created a Twitter clone as my mini project using HTML and CSS.

In this people can simply Tweet and do like and retweet.

EXPERIENCE

Participated in a Hackathon organized by our College
Solved 250+ questions on Codechef
